PREFACE

THESE records were brought together from time to time during Summer vacation—and represent both drudgery and pleasure. Originally the plan was to write a history of the Stillwells, but before long it was realized, that, if it were to be complete, it must include their intermarriages. The broadening of the scope of the book necessitated such oft-recurring references to old records that it became more expedient to copy them *verbatim* than to consult them at a distance.

Further it was impossible to resist the mute, but urgent, appeal of these old papers to save them from complete extinction through time and vandalism. Thus it was the records accumulated. Then it was decided to print, that the material might not be lost and that it might be accessible to others. Five volumes will be produced; a second volume being now well under way.

The work is essentially a reference one and appeals alike to the sociologist, genealogist and historian. It tells of the great simplicity of early life, the necessary frugality of the people and the hardships of the early settlers compared with the splendor, prodigality and ease of the present day.

The labor has been great, and, alone, in the midst of a busy professional life, it would have been difficult to complete had it not been for the assistance of my friend Harrison A. McNear.

JOHN E. STILLWELL.

* A volume among the early records in the county clerk's office, Richmond, Staten Island, N. Y., is marked Record 1680 Richmond County.

Its sheepskin covers are loose, its pages quite worn, and its destruction well advanced. It represents what I am disposed to think is Liber A of the county records, though it is not so marked. If this book be not it, then that volume is missing. It is a matter of tradition in this office that the first volume of records was taken to Albany very many years ago, to be used in a law suit; that failing to be returned it was sought for and the county officers were informed that it had long previously been forwarded. It was then thought that it might have been left at New York, but here it also was unsuccessfully sought. Since then many efforts have been put forth to find it and all probable places searched without avail. It is possible that there is another volume, but I am half-persuaded that the one here reproduced is the so-called missing Liber A. The contents at once suggested it as a town book for the whole Island, as also a county book. It contains the records of the town court, early road surveys, cattle marks, and miscellaneous matter, all of considerable interest and importance.

* The Baptismal Register of the Dutch Church of Staten Island, N. Y., commencing 1696.

This ancient record is written in the Dutch language and is here reproduced with full consciousness of the misspellings, and with no desire or attempt to correct this orthography or to effect any rearrangement, but, to the contrary, with every effort to make it *verbatim et literatim*. This course has been pursued because any attempt to arrange the names alphabetically or the dates chronologically would result in omitting valuable notes and confusing dates which need oftentimes the adjacent text to confirm them.

The English equivalents of some of the Dutch words are added, believing they may be useful.

It is well to bear in mind that in old writing the letters f and f and i and j are often so alike as to cause doubt in transcribing, especially proper names.

CENSUS OF STATEN ISLAND IN THE YEAR 1706.

Among the New York Colonial Manuscripts (Vol. 42, p. 60) at Albany is a record which purports to be a "List of the Inhabitants of the Towns of New Rochelle and Westchester" for the year 1698. This may be correct so far as it relates to the opening page, but the remaining sheets which make up the document are beyond dubiety a complete or partial census of the inhabitants of Staten Island. It is of considerable worth, enumerating as it does, the names of the residents of the Island, but especially valuable as it gives the respective ages of the males. It is without date, but it is my conviction that it was made in the year 1706. This inference is supported by the following facts:

"As for the number of Inhabitants of this Province I sent one exact list of them about four years ago, and another two years ago, where these were distinguished by Whites, and Blacks, Males and Females: I will take care a new list shall be taken and sent by the first opportunity."

Lord Cornbury to the Board of Trade, New York, July 1st, 1703. (N. Y. Col. MSS. Vol. V; p. 50)

James Poillon born 1681. Family Record.
aged 25 yrs. in Census.
makes 1706 date of Census.

Gershom Stillwell b. Aug. 17, 1683. Family Record.
aged 23 yrs. in Census.
makes 1706 date of Census

Thomas Farmar b. 1673, according to Whitehead.
aged 33 yrs. in Census.
makes 1706 date of Census.

Nicholas Britten b. 1679 (d. Jan. 12, 1740 aged 61, Tombstone).
aged 27 yrs. in Census.
makes 1706 date of Census.

John Poillon b. in 1679. Family Record.
aged 26 yrs. in Census.
makes 1705 date of Census.

Cornelius Nefes bapt. Jan. 19, 1661.
aged 44 yrs. in Census.
makes 1705 date of Census.

Nathaniel Britten bapt. July 14, 1678. Aged 13, Dutch
Church, Brooklyn, born 1665.
aged 42 yrs. in Census.
makes 1707 date of Census.

The difference in the census date, as deduced above, can most likely be accounted for by the approximate ages given to the census taker. However, the date of 1700 is not always sustained, provided the following dates which have been supplied me are correct:

George Nefes b. 1686. Family Record.
aged 22 yrs. in Census.
—————
makes 1708 date of Census.

John Nefes b. 1688. Family Record.
aged 20 yrs. in Census
—————
makes 1708 date of Census.

Gerard Croose [Gerrit Kroesen] d. 1767 aged 82. Tombstone at Feasterville, Pa., b. 1685.
aged 24 yrs. in Census.
—————
makes 1709 date of Census.

It may become necessary to revise this date, but until we can secure more exact data I believe that 1700 should be accepted.

“Mr. Waddell & Mr. Taylor kept no record in this book”

*A copy of this ancient record was made by the Rev. Harry Finch, aided by his wife. They were prompted to this good work to save the original book, which was showing rapid marginal decay and suffering from the corrosive action of the ink. They rearranged the entries so as to bring the marriages, baptisms, and burials under separate headings, and so continued them from the beginning to the end. In the copy here produced the record is only brought to 1825, but the original arrangement is strictly adhered to, and the text has been carefully compared. Besides compiling his transcript of the Church Register, Mr. Finch made extensive searches into the early history of the church and its possessions, alike valuable and interesting, and which will be introduced in their entirety further on. Mr. Finch's copy of the Register is in the possession of the curate, and is the one generally consulted; the original, when I had access to it, was in the possession of Mr. Allen at Shrewsbury, opposite the church, but has since passed to the care of another official (with it a package of old papers), and is deposited in a bank vault in Red Bank. It is to be regretted that breaks occur in the chronology of the record. It is worthy of note that interments in the churchyard were not invariably registered in this record, and, on the other hand, there are allusions in the record to interments of which there are now no traces in the yard.

The old bell of Christ Church, Shrewsbury, N. J., was sent to a Santo Domingo Roman Catholic Church. There it remained until the Revolution that deposed Soulouque, when it was sent to New York by its captors, and bought by Mr. William Van Zant of Little Neck, L. I. It called the faithful to prayers, but a hill between the house of Mr. Van Zant and the church prevented him hearing it plainly, so he sold it to the Rev. Mr. Wheeler of Shrewsbury. It has a bas-relief of the fleur-de-lis, and date 1788.

On the left side of the entrance, and outside of the church, is a large flat brown-stone, which originally bore an inserted brass burial tablet. This is lost, and the history of the one which it was to commemorate. There are three stones also in the church floor, covered with the carpet. They, with the preceding one, as also Col. Redford's, stood or lay, it is said, in the pathway leading to the church door, and were removed in the march of general improvements.

A DISCOURSE BY WAY OF DIALOGUE BETWEEN *

an old Inhabitant of the County of monmouth and a Proprietor of the Eastern Division of new Jersey by Which the Impartial Reader may In Some measure make a Judgment Whether the first Inhabitants of s^d County ought In Justice to pay Quitrents for the Land they hold or not; Written by Will Will be true Who arrived In s^d County on the first of may 1666 and has been a Constant Inhabitant and an observer of affairs and Transactions there in to the first Day of December 1727.

Proprietor, S^t. I am glad to See you and much more Should be to Know the Reasons why you refuse to pay your Quitrents that has been So long Due & imp^d

Will Will be True. I Think not Due Therefore not paid.

Pro; How Can that be, When the Patent by which you hold your Land oblidges you to pay the rent therein reserved.

Will. I think that no obligation at all. Have Patience and Give me Leave and you Shall hear my reasons.

Pro; That is w^h I want to know therefore Say on.

Will. The first to be Considered Is the Great Hazard Wee run, the Extream Hardships wee underwent. The many Difficulties Wee met with and the Charges wee was at In En Largeing the Kings Dominions by Setling a Wilderness Country In the midst of a Barbarous People who had Scarce Washt their hands that had So Lately been Imbured In Christian Blood;

Next is the Good Right Wee have to the Soill and the Just measures wee took to obtain it (viz) not only by purchasing from the Indians by the Governours Leave but also Got it Confirmed by a Patten^t be Granted to twelve Persons Called Patten^tees and their Associates bearing Date the eight of april 1665 for That tract of Land begining at Sandy Point and Runing along the bay to the mouth of Rariton River from thence Going along the River till A Corner to the westernmost Part of a Certain mash, Land that Divides the river In Two parts, from that part to Run in a Direct South West Line In to the Woods twelve miles, then to turn away Southeast and by South till it falls Into the main ocean; For Which Tract of Land the Indian Sachems Did acknowledge Before the Governour to have Received Sattisfaction; and again the S^d Patten^t was Confirmed by Governour Phillip Cartroert [Carterett in different ink and writing written over Cartroert] and Councill by and Instrument under their Hands bearing Date the 28 of may 1672, as followeth, upon the address of John boume Richard Hartshorne James Grover and Jonathan Holmes Patten^tees and James Ashton and John Hanse associates (Impowered by the Patten^tees an Associates of the towns of Shrewsbury & Middleton) to the Governour and Council for Confirmation of Certain Priviledges Granted unto them by Coll. Richard Nichols as by Patent under his hand and Seal bearing Date the 8th of april 1665 the Governour and Councill Did acknowledge and Confirm to the S^d Patten^tees and their Associates the Particulars following Being their Rights Contained In the S^d Patten^t:

Imp^d. That the S^d Patten^tees and their Associates have full power Licence & authourity to Dispose of the Land Expressed In the S^d Patten^t As to them Shall seem wise &c—Yet notwithstanding the Good Right and Great Assurance Wee had for our Land about the year 1670 Governour Cartoret Gave Notice for all Persons to take Patten^ts for their Land under the yearly rent of half penny p^r Acre & not he would grant it to any other that would.

Some Persons Knowing the Just Right they had & the Just meashures they had taken to obtain

* This paper is a copy of an original document written by Wm., son of Wm. Lawrence, the first, of Middletown, N. J. It belongs to the Hartshornes of Portland, N. J. It sets forth the differences between the early settlers and the proprietors, and is a valuable contribution to the local and general history of this period.—J. E. S.

it, Refused to be at the Charges of Resurveying and again Patent[ing] their own Land on them terms and their Land was by the Governour granted to other Persons, So it was not of our Choice but your unjust Dealing that obliged us to take pattents on the terms you please to Grant or be Dispossessed of our Land:

Pro. That Could not be that you Could Loose it if it was your own; the Law would Protect you In the Enjoyment of it.

Will. That is true Provided wee Could have Stood on Even Grounds with the Proprietors, Which wee Could not Expect So Long as the Proprietors had the putting In of Governours and they the appointing of Sheriffs & Judges and their Sheriffs y^e Impannelling of Jurys, It being Incident to the most of man kind to oblige their Best Benefactors Wee Doubted of Justice.

Pro. If you had Doubted of Justice here you might have had Justice at home:

Will. No Doubt but wee being poor Scarce able to Stand a Law Sute here much Less to Remove it home to England:

Pro. Certainly you are very forgetfull, or you would not argue against Paying Rent for your Land When by (your Darling) Nichols his Patent you was to pay rent for your Land:

Will. I have not forgot I Well remember by that Patent Wee Where to enjoy our Lands for the Space of Seven years free of rent Custom and Excise: and then to pay Such Rent as others the Inhabitants of his Royal highness Territories Should be obliged to. The which wee Would Gladly Do now Provided wee Could Enjoy all the Land and other Priviledges Granted to us by y^e patent or if wee Could have the Liberty confirmed to us by Governour Carteret and Council that [are] ye Disposeing of the Land Expressed In Nichols his Patent, As to us Should Seem meet, Wee No Doubt might have money to pay Such rent as was Reserved by that Patent; and a Good Sum to put In our Pockets. But Sence you have Cut us Short of all the Priviledges Granted by that Patent, and also of that which was Confirmed by Governour Cartoret and have Divided among your Selves and Granted to others, a Hundred Thousand acres of our own Land, and Claim a Right to at Least Two hundred thousand more, I think you may be Easay that Wee Injoy between [sic] and thirty Thousand acres free of rent.

Pro: Now you have S^d. wh^t. you Can, I have that to Say which you Can:

Will: Let us hear what that is

Pro: about the year 1682 or 3 the pretended Patentees & their Associates Did Surrender their right to Nichols Patent on Condition that the Patentees each to have 500 acres & their Associates Each 100 acres free of Quitrent the Which was Confirmed to them by pament:

Will. if it was as you Say Doubtless you can prove that (or wee Do our right) by an Instrument In Writing. However if it was So it is Just making Good the old Proverb. you p^d with a pig of our own Sow the Land was our own bought with our money Confirmed by two Governours It never Cost the Proprietors one farthing to purchase it of the Indians ye right owner and Chief proprietors thereof.

If it was as you say I know nothing of it And I challenge all the Proprietors and records In Jersey to Prove that Either my father or my Self Ever had one foot of free land Granted to us on that account, But this I very well Remember That about the year 1682 or 3 Gawin Lawry was the Proprietor Governour and he made Robert Hambleton Sheriff of the County of monmouth and Gave him order to Distrain for Quitrent accordingly he Distrained the Cattle of one John Smith In middletown Who was So Enraged he got his Gun and had he not Been Disswaded by Some persons of more moderation then himself he had Done the Sheriff Some mischief.

Although that Injustice of the Proprietors Set the old Inhabitants almost In a fiery flame they thought it No Boot to hazard a Law Suit for the Reasons following (viz)

By that time there was a Considerable number of people Settled In the Country Who was thereunto Incouraged by Reason that the Greatest Hazard Hardships and Difficultyes was past, and you y^e Proprietors Let them have our Land that you Took from us on as Easay terms as wee that had run the Hazard born the brunt and once already p^d for it both to The Proprietors and Indians, I Say there Could be Little Hopes of Justice where our Advesaries Would Set our Judges and the Jury Likely to be made up of Such Persons, Who if they Gave a Verdict for us must Condemn their own Title and Implicately acknowledge their Lands that they Bought of the Proprietors was ours:

Therefore I think Whoever Will be Impartiall must Iudge till you make it appear that you had a right to the Soill You Can have no Right to rent for it.

Pro: Do you think that there is no acknowledgment Due to the Proprietors:

Will: Not at all Because they Never had a right to the Soill therefore no right to rent for it

Pro: Did not King Charls Grant the Soill with the Government to the Duke of york: and he Grant the Soill with the Government to the Proprietors:

Will: The Question is How King Charls Came to have a right to y^e Soill.

Pro: King Charls Got it by Conquest when he took it from y^e Dutch

Will. that is Denied because the Dutch Never had that tract of Land now the County of monmouth In Possession by reason of their Wars with the Indians They Dare not Venture over to Take it. In Possession Seeing the Dutch never had right nor Possession King Charls Could not obtain a right to the Indians Land never Sold to the Dutch by Conquering the Dutch.

Pro: You Will not allow then that King Charls had a Right to the Soill. Therefore the Proprietors none.

Will. No because he never had it by Discovery Conquest Gift nor Contract Therefore no Right the Soill.

Pro: Pray by what title Do you Pretend to hold your Land if not by patent from the Proprietors. Wee hold our Land by (an honest Purchase and Consideration paid for)

Will. A Title Derived from a Charter Granted to the Sons of Adam by the Great and Absolute proprietor of the Whole Universe God almighty and has Stood Recorded In the best record on Earth 3108 years In these words, Remember the Days of old Consider the years of many generations, Ask thy father and he will Show the thy Elder, and they Will tell the When the most High Divided to the Nations their Inheritance. When he Separated the Sons of Adam; He Set the bounds of the People:

Pro: Then you Deney that their is any acknowledgment Due to the Proprietors.

Will. Yes Wee Do

Pro. and So Consequently to the King.

Will. The acknowledgment wee owe and Duely pay to the King Is In obedience to his Laws and being Bound to Support maintain and Defend his Person Crownes Dignity to the utmost of our Power &c Now to Conclude I Speak for my Self That When you Make it appear that att the time you Granted my Patent you had better Right to the Land then I had, I Shall be Willing to Pay Quitrents, but till that be Done I Hope In Justice to Hold my Land free by Plain Dealling.

LOG OF A JOURNEY FROM RED BANK, N. J., TO NEW YORK CITY.*

A journal of our intended voyage by Gods Permission from Red Bank to New York Distant 12 Leagues in ye sloop Portland and back Again.

On Saturday the 9th Novm^r 1734 we went on board In order for to come to Sail but in weighing the best bower it got fast under the Stern and it not being got light we could not clear it untill the tide was so much fallen that we could not get away so we was obliged to go on shore again the wind W S W and went home and Likewise the Passengers went home.

On Sunday the 10th we went on board without the Passengers early in ye evening and got Down the river as far as Mr. Pintards it being one mile but it was with much labour for their was no wind and we were obldge to Row and set all the way, when we came their 7 passengers came on board but went on shore again for the wind sprung up at E & S and that being contrary we went home again on foot, wet weather.

On Mon^d the 11th at 12 o'clock we went on board again with 5 passengers and sailed down the river as far as Rocky Point the wind at S and their got aground and Lay untill hy water that being at 9 o'clock when we weighed Again & with Abundance of Difficulty and hard Labour we got to black point then it being Late in the night tho it being but I mile yet the wind being at S Contrary we ware obldge to row and set all the way and got aground several times then being come to an Anchor we went on shore & some of our passengers Lodged on shore the weather being all day Lowering, ye distance from Mr. Pintards to black Point being 2 Lgs.

On Tues^d we went on board Again with all our passengers In ye morning & set sail & sailed towards the Inlet about I mile and there got aground & tho we carried out an Anchor & strove verry hard for it yet we could not Get off that tide, then their came a Canoe & feteh't one of our passengers & some of us went on shore & butyened a pig and Eat him, then towards Evening went on board Again and at hy water we strove to get off again but could not tho we carried out an Anchor & took much trouble, in the evening came in a sloop from Rhode Island Capt John Watson Commander & run aground in call of us at Dark came a Canoe on board and took one of our passengers on shore.

* This trip to New York City, taking six days in 1734, is now made daily in three hours.

So we finding our Labour in striving to get off to be in vain we went to sleep the wind at W & N clear weather.

On Wednes'd by Break of day we began beat and thump and at hy water we got off and got over ye shole, we lay upon and came to an Anchor. Likewise the other sloop got off and slpt her cable & left her boat with it & got some of our passengers to carry it to black point, in the after'noon they came back with that passenger that Left us the night before, then we went on shore 4 of us and got some wood, while we were on shore one of the Passenger that came on shore with us had a fit of fever & Ague, when we came on board Again we weighed Anchor & in casting the Anchor the Cat-roap broak & ye Anchor fell down Again and before we could get it up again we got aground & was obliged to carry out an Anchor Again & in about 1-2 an hours time we got off & sailed Down to the baar, but it being low water we struck upon the baar & lay thumping bought 1 hour, by this time the sun was Down & when we got out the wind was at W B[?] N, we sailed along Sandy hook, about 2 miles & then the wind began Scant upon us and at last came to N. W then we were obliged to turn it & in 3 trips we got within the hook, we had a verry rough time and several of our passengers ware sick, we ran against shole harbour & came to Anchor there at 11 o'clock at night & went to sleep, some of our passengers ware yet sick the weather indifferent & Clear, she rid all ye night wind still at N W & blew fresh.

On thurs'd towards day we awoke and boiled a pot of potatoes & eat of them by Day light, we weighed Anchor and came to sail, the wind still at N W that morning we got into Pemy City Cove where lay 2 Vessels one of them from Egg Harbor which was full of water, ye people came on board of us to get some meat we having a small shoat let them have half of it & took part of the other & carried it on shore with some potatoes which we Exchanged with the other people for musty Indian meal & made Doboys of it at an Indian wigwam, so having Eat our Doe boys potatoes & pork & got some wood, towards Evening we went on board Again all but 2 passengers which Left us & went home on foot, so then we had lost 3 of our passengers, ye wind still at N W clear weather, the man that had a fit of the feever & ague yesterDay had another this Day, Also I cut my Right hand with a Shell very badly.

On Fri'd we boiled more potatoes & pork & Eat that for our bread was all spent, towards Even- ing their came a man & hail'd us, 4 of us went on shore to him & he told us he wanted a passage to York, we told him ye wind was contrary & we could not tell when we should go for it was at N W still, so he Left us, then having got some wood we went on board Again, by this time we found ye wind was shifted fair for us, we quickly come to sail and with much Difficulty we got out of the Cove, the wind at S W by this time it was dark, however we steered our course, then we boiled more potatoes and Eat them without Anything, then being obliged to steer by the Compass we had no Candle but were obliged to put some tallow in a rag & Do with that, then having made the narrows at 10 o'clock at night we had 1 small bottle rum which finished by the time we got into the narrows, then the wind dyed away and we hoisted our Square sail but presently the wind sprung up and Broak the Car, we burn'd it out with & had like to have carried the Square sail away but having a brisk gail & fair we got to York by 11 o'clock that night but in coming to run into the Dock we run with our Bolt Sprit upon ye Long Bridg.

I had like to have Broak it & tore ye jib but having clear'd her again we with much difficulty haled her along the Dock where having fastened her & Landed part of our passengers & secured all things the rest of us went to sleep the wind at S W, clear weather.

On Saturday we haled Close to the wharf (for we could not get Close Last night the tide being too low) & Landed our wood which was a cord & 3-4, then having some barrels upon Deck we went to Lower them into the hold & they laying upon the side next to ye Dock when we took them off she Listed off & broak ye down hale of ye jib which was made a fast off and stove a barrel of flour and a barrel of meat and broak a cheefse but having lighted her again and put things in order by this time it was night, the wind W B[?] N, clear weather.

On Sun'd ye 17th Novem'br at night, came to town 2 of the pasengers we left behind—this day all good weather.

On Mon'd we landed some Leather & Cheefse we then being got unto Councles Dock, the weather clear.

On Wednes'd we took on board 4 pipes of Syder, in taking of them on we split one of the takel blocks and was put to much trouble to get them in.

Also we took on board 8 barrels and 2 Crates and other goods, at night by candle Light we spliced the Down hale of ye Jib intending to sale at 4 o'clock ye next morning, for then the tide did serve, and ye wind at S, fair and good weather. On Thurs'd by 2 o'clock in the morning we got all things in order for to sail and got water on board, but their being 4 Vefsels of us, all Defining to sail to-

gether, and had Appointed to Call upon one another & we trusting to that, went to sleep, they all went away without calling upon us, so when we awake our vessel was aground and we could not go that tide tho ye wind was fair, when we floated again we came to sail, ye wind at E B [?] N and rain by the time that we got down to ye narrows, the wind was got to N E and ye tide of Eb was made for us then we had a Debate Among us whether we should come to an Anchor their and stay untill better weather or stand along, but at Length we concluded to stand along and see it out, but the fog was so thick that we were oblig'd to steer by ye compass and in crofing ye bay the Cask shifted in ye hold ye Seas being so rough--Likewise our main sail give way out of the bolt Roap, ye wind being so hard, however after some time we made Sandy Hook, we then being within we made for permy City Cove but in going in we grounded upon ye point of the Cove, but having a fresh breeze we rub'd over but being Desirous to get as far in as we could we went to put her in stays, but she mistayed several times, then we wore her but with mistaying so often we were got so near ye shoal that in waring she struck, but rub'd over, then we find the wind so hard that it was imposible to bring her to stays we come to an Anchor in ye mouth of ye Cove, so having put things in order we went and kindled a fire and warm'd ourselves, their being but 2 passengers, we went to sleep, ye wind still at N E and rain and cold uncomfortable weather. On fry'd morning went to mend ing ye main sail, but for want of a needle we were oblig'd to make one of an old fork, which we made holes through ye sail and put ye twine through and so round ye bolt roap, so having mended some part and hoop ye other by taking a reef we come to sail ye wind at N W and in 3 trips we got round ye point of ye Rock the wind then being fair we in a little time got in ye River but just as we come to black point ye wind being contrary thare we got aground and was oblig'd to carry out an Anchor before we could get her off but having got her afloat.

THE FRIENDS' RECORDS
OF
SHREWSBURY, N. J.

VOL. I.

The preponderating religious element in the early days of Shrewsbury was Quaker. As soon as a sufficient number of families of this faith were settled upon this tract, they established a meeting, which convened at the various houses.

George Fox records in his Journal, 27th of 6 mo., 1672, that he arrived at Richard Hartshorn's, at Middletown Harbor, which was in a new country now called Jersey; went from there to Shrewsbury, and they were building a new meeting-house there. It was evidently not ready for occupancy, for Fox preached near where now stands the station of the Central Railroad of New Jersey, at Little Silver, under the shade of a tree that stood in the corner of the road that leads to Shrewsbury Meeting House.*

One tradition has it, that this primitive house was built of brick imported from Holland, another, that it was of logs. In the center of the room a brick floor was used as a fire-place, corresponding to which, overhead, was a sheet-iron canopy, leading to the roof. This building stood until 1815, when it was torn down and rebuilt of wood, in the following year.

As has ever been the case among them, they started a record of births, marriages, and deaths, which has been continued, without interruption, from their earliest inception to date. The first volume shows much marginal wear and decay, and in time it is likely to be lost from these causes. It is here produced, as is also the second volume, as literally as possible

* Parker tradition.

INSCRIPTIONS
FROM
FRIENDS' MEETING HOUSE YARD,
SHREWSBURY, N. J.

The stones in this yard are noticeable for their small size and absence of ornament. It was considered among this sect, perhaps more so formerly than now, a mark of pride and too great ostentation, to erect tablets over their dead. It is traditionary in Shrewsbury, that, a hundred years or more ago, when a number of Friends had too far departed from an observance of this rule, they were promptly brought to a realizing sense of their error, by a co-religionist, of the name of Parker. He, accompanied by his laboring men, applied sledge-hammers to the most prominent stones, and only ceased, when the débris of many was thrown into the highway, as a warning to others. James Steen, Esq., of Eatontown, an antiquary of great diligence and ability, has in his possession a portion of a headstone which may be one of the relics of Friend Parker's onslaught. This stone is marked, M. P. 1715, and probably stood for Mary Parker.

There are doubtless many interred here, whose resting-places were never marked, or, if so, only temporarily, by wooden tablets, of which no evidence now remains.

* This volume served as a town, as well as a county book, inasmuch as the town preceded the county, and was its sole place of habitation.

The entries at first were somewhat voluminous, but rapidly decreased before the Revolutionary period. By this it is not meant to convey the impression that land transfers were not as common, but that the parties to the conveyances were indifferent to their recording, or that imperfect or difficult provision was made therefor. As a consequence, the titles in Cape May Co. this day are largely based upon unrecorded deeds, and are often the subject of disputes.

Within the past twenty-five years claimants have arisen for properties held by the Hands, and by Mr. Nathan Price, the present owner of Town Bank, the site of the first settlement in the county.

The original whalersmen who settled here made a joint contract for land. One of the descendants of these proprietors presented a deed to Mr. Price, which claimed the lands that he had been in possession of many years. However, it was unsigned, probably because the whaling interests had already commenced to diminish, and the property was considered of little value. Of course it proved valueless in its unsigned condition, but Mr. Price bought out all rights the claimant had. Mr. Price, at the time of my interview with him, possessed a large number of deeds, none of which were recorded, nor seemed likely to be, as the present law demands that a deed of greater age than ten years, is to be filed in the County Clerk's office, which few are willing to acquiesce in, not caring to part with their originals.—J. E. S.

There have been erected, since the preceding copy of the inscriptions in this yard was made, the following stones:

Lydia Dennis, wife of Samuel, (he died July 25, 1871), died Jan. 26, 1886. Aged 86 yrs., 3 mos., 11 days.

John Hurley died 1775, aged 82 yrs.

John G. Kimm, b. May 14, 1814; d. Feb. 26, 1885.

The only *slab* left in the yard is fast falling to pieces. It was erected to George Lippincott, son of Jacob & Mary, and perhaps Nov. ought to read May, for it looks like M^r.

In another part of the yard is found Joseph Lippincott, b. Nov. 14, 1801; d. Sep. 4, 1888. He also was a son of Jacob and Mary, though the stone does not say so.
